Description:
The most complete intonation resource for band directors! This book contains everything a music educator requires to approach fine-tuning intonation with their ensemble: learn the origin of our pitch tuning standard * understand when to apply equal tempered vs. just tempered tuning * calculate the proper harmonic ratios for fine-tuning chords * identify the best tuning notes for each instrument * 14 steps for tuning chords * properly tune brass slides * improve your knowledge with over 70 tuning truths and myths. In addition to the above content, this resource includes intonation charts for tracking personal progress, along with extensively researched color-coded fingering charts for every instrument providing pitch tendencies and suggestions for alternate fingerings.

I don't have enough good words to say about this book. Buy it. Period. As soon as I began using it, my group's intonation improved tremendously. The fruit of that improvement was seen in our band adjudication scores this past March and May. Very accessible and user friendly (including pages that are okay to duplicate and pass out to students).
